

Make a springy legged frog

You will need:

Crayons

Scissors

Wool or string

Tape

Scrap paper

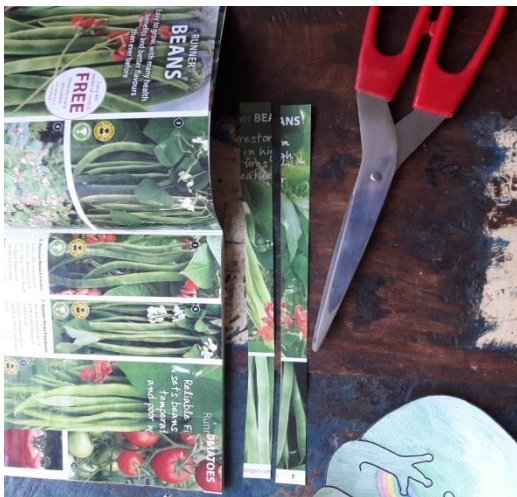

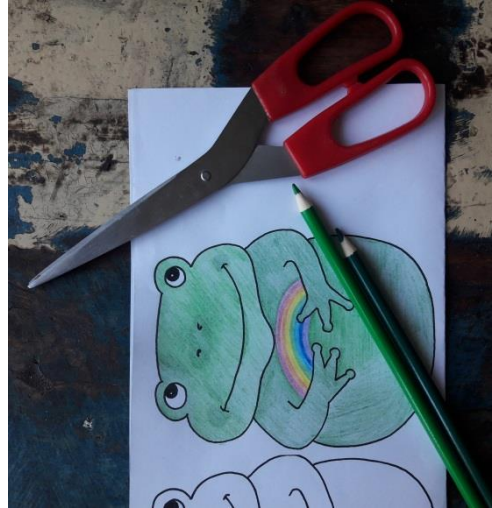

How to make it:

1. Colour in your frog and cut it out.
2. Cut two long strips of paper for the legs. We used an old magazine. You can use scrap paper or wrapping paper.
3. Fold the strips of paper backwards and forwards into zig-zags.
4. The zig-zags make your frog's legs springy.
5. Tape or glue your frog legs to the body and tape a loop of string to the top to hang your frog on your wall.
