

## Cat on a Table

This painting shows us a cat sitting on a table.

What other objects can you see in this painting?

Can you find any of these objects in your home?

Collect some of the objects together and lay them out on your table or floor.

Don't worry if you haven't got the exact object; just try to find something similar. If you don't have a cat, use your favourite toy instead. If you do have a cat, good luck getting it to stay still for you! (Treats help)

See if you can match your objects to how they are in the painting.

How do you think the artist feels about his cat?
