

How to make superhero cuffs

You will need:

Inside of a toilet/kitchen roll

Scrap card, paper, anything you can use from your recycling

Colouring pencils/pens

Scissors

Glue

Tape

What to do:

1. Cut a slit along your toilet roll. The curl in the tube should make your cuff hold onto your wrist (if it doesn't, just tie it together with a bit of wool).
2. If you want your cuff to be smaller, you can cut it to the size you want.
3. Decorate your cuff in your superhero trademark colours. You might want to put their special superhero logo on too.
4. Wear your cuffs – what special powers do they have?
