

How to make a superhero mask

You will need:

Scrap card, paper, anything you can use from your recycling (we have used a pizza box, chocolate bar wrapper, string net fruit bag, bubble wrap)

Colouring pencils/pens

Scissors

Glue

Tape

What to do:

1. For a basic mask shape, we drew around a roll of tape. You can draw inside the tape for a smaller mask. Your mask can be any shape or size you like.
2. Cut out your mask.
3. Cut out the inside of your mask so your superhero can see where they are going!
4. Decorate your mask.
5. To wear your mask, you can attach wool, elastic or a strip of card or plastic for a headband.
